REAL NAME: James Buchanan Barnes
AKA: Captain America

After the murder of Steve Rogers, the man who was Captain America, Cap's former partner during World War II, James "Bucky" Barnes, agreed to don the mantle. And even as he struggles with the sins he committed as the Winter Soldier, the Soviet mercenary he was brainwashed into becoming during the Cold War, the new Captain America finds his pasts as both Bucky and the Winter Soldier colliding with his present.

In 1942, Cap and Bucky, along with the Human Torch, were part of a secret operation to rescue top Chinese scientist Professor Zhang Chin, a 12-year-old super-genius. In 1968, the Winter Soldier was called on to eliminate Chin, but instead killed an innocent woman. Now, years later, he comes face to face with Chin's greatest, most terrible experiment - the resurrection of the Human Torch!

Cap calls in Namor to help him infiltrate Chin's lab in Taiwan. Little does he know, Black Widow has just discovered the secret Cap has been trying to keep from her - that the Winter Soldier is a wanted man in China and that he's deliberately walked into the lion's den.
